Education

Delhi Technological University

Bachelor of Technology in Software Engineering — CGPA: 8.3/10.0

New Delhi, India

Aug. 2023 – May 2027

RPVV Paschim Vihar

CBSE Class XII: 92.6% — Class X: 93.6%

New Delhi, India

2021 – 2022

Technical Skills

Languages: C++, JavaScript, C, SQL, HTML/CSS

Frameworks & Libraries: React.js, Node.js, Express.js, Next.js, Tailwind CSS

Developer Tools: Git, GitHub, VS Code, Postman, Chrome DevTools

Technologies: REST APIs, Browser Extensions, Responsive Web Design, Version Control

Projects

LeetCode Complexity Visualizer | *JavaScript, Chrome Extension API, Chart.js*

2024

- Engineered a browser extension that automatically detects and analyzes time and space complexity of code submissions on LeetCode and GeeksforGeeks platforms
- Implemented real-time algorithmic complexity visualization using interactive graphs to help developers optimize their solutions
- Integrated seamlessly with coding platforms using DOM manipulation and content script injection techniques

Personal Portfolio Website | *Next.js, React, Tailwind CSS, Vercel*

2024

- Designed and deployed a fully responsive portfolio website showcasing technical projects and professional experience
- Leveraged Next.js for server-side rendering and optimal performance with image optimization and lazy loading
- Implemented modern UI/UX principles with Tailwind CSS for consistent design across all device breakpoints

Experience

Software Development Enthusiast

Aug. 2023 – Present

Independent Learning & Projects

Delhi, India

- Solved 350+ data structures and algorithms problems on LeetCode and GeeksforGeeks, focusing on optimization techniques, dynamic programming, and graph algorithms
- Participated in multiple hackathons including college-level and online competitions, building rapid prototypes and collaborating with cross-functional teams under time constraints
- Developed and shipped production-ready full-stack web applications with focus on clean code, scalability, and user experience
- Self-taught modern web technologies including React ecosystem, Node.js backend development, and RESTful API design patterns

Achievements & Activities

Problem Solving: Solved 350+ DSA problems on LeetCode and GeeksforGeeks; regularly participate in LeetCode weekly contests to enhance algorithmic thinking and time-bound problem solving

Hackathons: Participated in multiple hackathons, gaining experience in rapid prototyping and team collaboration

Academic Performance: Maintained 8.3+ CGPA while actively pursuing software development projects and skill development
